

Attention!!

Dear

I am writing to formally and respectfully apply for a religious exemption to Covid-19 vaccination policy that requires that all employees (or students) show proof of vaccination in order to (attend in-person school or stay employed). I base my request on religious grounds. I hold sincere and genuine beliefs that forbid me from accepting a COVID-19 vaccination.

Under Title VII of the Civil Rights Act

An employer must not discriminate against an employee on the basis of that employee's sincerely held religious beliefs. Religious discrimination involves treating a person (an applicant or employee) unfavorably because of his or her religious beliefs. As you know, the law protects not only people who belong to traditional, organized religions, such as Buddhism, Christianity, Hinduism, Islam, and Judaism, but also others who have sincerely held religious beliefs.

'I ask that this request for exemption be kept 100% confidential as it contains thoughts and sentiments not shared in casual conversation and deeply personal to me....' 'The content of this letter is of an extremely personal nature...' 'The only reason we share this with you is because the law dictates that we do...' 'I ask that this be shared on an as-needed basis only; that is, only those charged with approving the exemption request should read our words.

The Wisconsin Rural Folk Society was established in 2019 after leaving a larger international organization. We are a confederation of Europe tribes that come together in the ancestral faith of Germanic and Norse Heathenry. Essentially this is what many would call paganism and we are the Old traditional branch of Heathenry meaning a healthy and knowledgeable existence.

An example of our Morals and view

Marriage between Man and Woman

Celebrating the Holy days of the year will using historical sources

The advancement of our rights under the current laws of the residing state or even country

We are Traditionalist

Our religion of Asatru or Heathenry often referred to as old tradition is not well known but has been becoming more prevalent and organized in this day and age. We have traditional views as well as our own moral compass or own bodies are viewed as temple in which we ourselves must take care of. This means in our own views of care and wellbeing which is our right of our body our choice.

Our connection to our God's our creators must be maintained through physical wellbeing. Weather this be mental or physical such is the pursuit of knowledge and wisdom and the ability to make our own decision and question authority. We are expected to make our own decisions and dealing with the consequence of our own actions. But this in no way should affect our industrious work ethic with the overly hyped and blown out of proportions that is Covid-19. We see viruses as nature's way of balancing out the many variables of the world. Well, the human mind often makes the threat bigger than is really. But here we a year later after 2020 and still the current politics and money have made things a mess in the current would. (Left or right political party is doesn't matter)

Are ability to adapt and survive has been over many millennia of human evolution even know we continue to evolve in this manner of natural progression without altercation or surgical enhancement. Our worship of the natural and divinity should not be sold or soiled by the hands of man. Weather this be political or financial gain under our strong moral compass. This was recently bought to attention with our first experience using this and that as of current there has been no feudal mandate and thus even if there was its unlawful.

As of 11/07/21 of our experience it goes by state guidelines in which the state of Wisconsin barley or has none. (Flying on ignorance and the seat of one's pants) Constitutionally it was deemed by a supreme court to be unconstitutional to force some one with a vaccine mandate. Although we were aware of the condition of the followers of Eir (in the medical field) We still see it as a violation of our holy nature.

Daily we see the ever-growing complications of individuals whom have taken the vaccine will and forced. You can pass these events off as rare, but they have become more common.

When leaving this world our Ond must be intact and in the best shape possible by natural means. We must leave our Ond (spirit) for the next of kin when they are born in our image that the God's created. This means we must do whatever it takes not to damage the next in line before they even arrive into this world, or the current in which many reside.

Our moral compass and virtues are not on our social media or website such things are always taught in person. To say one has a complete understanding of what we are and do is a lame mans term. "A fool" For we never stop learning

"No man has the right to be an amateur in the matter of physical training. It is a shame for a man to grow old without seeing the beauty and strength of which his body is capable."

— Socrates

Until this vaccine has factual statements of prevention which has been heavily diluted by mass media and other sources it is not in our best interest to participate unless willing to do so. Such is the Hugn and Mini (Thought and memory) in which exist in every man woman and child of stable value.

Any questions you are welcome to contact me below and expect a lengthy phone conversation to follow

We are aware that some vaccines are FDA approved but we still see no guarantee of complications from such.

Sincerely Kevin Joseph Lewis D'Addezio
Gothi of the Wisconsin Rural Folk Society

Below is a questionnaire for you

“I write with regard to the matter of potential covid vaccine and my desire to be fully informed and appraised of ALL facts before going ahead. I’d be most grateful if you could please provide the following information, in accordance with statutory legal requirements.”:

1. Can you please advise the approved legal status of any vaccine and if it is experimental?
2. Can you please provide details and assurances that the vaccine has been fully, independently and rigorously tested against control groups and the subsequent outcomes of those tests?
3. Can you please advise the entire list of contents of the vaccine I am to receive and if any are toxic to the body?
4. Can you please fully advise of all the adverse reactions associated with this vaccine since it’s introduction?
5. Can you please confirm that the vaccine you are advocating is NOT experimental mRNA gene altering therapy?
6. Can you please confirm that I will not be under any duress from yourselves as my employers, in compliance with the Nuremberg Code?
7. Can you please advise me of the likely risk of fatality, should I be unfortunate to contract Covid 19 and the likelihood of recovery?
8. Can you please advise me if I were to experience any adverse reactions is the manufacturer of the vaccine liable? If the manufacturer isn’t liable will the company I’m currently employed with be responsible & liable as it is their request that I have the vaccine in order to carry on my employment?

Once I have received the above information in full and I am satisfied that there is NO threat to my health, I will be happy to accept your offer to receive the treatment, but with certain conditions – namely that:

1. You confirm in writing that I will suffer no harm.

2. Following acceptance of this, the offer must be signed by a fully qualified doctor who will take full legal and financial responsibility for any injuries occurring to myself, and/or from any interactions by authorized personnel regarding these procedures.

3. In the event that I should have to decline the offer of vaccination, please confirm that it will not compromise my position and that I will not suffer prejudice and discrimination as a result?

I would also advise that my inalienable rights are reserved.
